iPass Tips & Tricks

Query Reports Available for Download

If you can't find a report that gets you the information you are looking for, be sure to check the Query Files for Download available in iPass Help. There are many helpful Query Reports that you can download from Help and then import to your own iPass database. With a few district-specific selections, you can get the data you are looking for.

Go to iPass Help > My Queries > [Query Files for Download](#).

For directions to download, refer to iPass Help > My Queries > Help > [How do I import a query file into my iPass database?](#)

At this time of year districts may want to check to see if they have iStudent Accounts for all of their students and check to see if the accounts are active.

iStudent Accounts Activity – Enrolled Students

This query will list all enrolled students and indicate if they have logged in, when the password was last changed, and if the account is Active.

This query is run by School Year, School, and Grade Level. It will include enrolled students only.

When you execute the query select the following:

- Calendar Year
- Grade Level
- School
- School Year Start Date
- School Year End Date
- Enrollment Status - Defaults to E for Enrolled

ID	First Name	Last Name	User Id	Grade Level	Yes indicates hasnt logged in yet	Last Password change	Active	Status
12207	Thomas	Smith	smith12207	12	no	10/20/17	yes	Enrolled

A student with User ID = ? or blank indicates that student does NOT have an iStudent account.

This query can be found in iPass Help > My Queries > Query Files for Download > [iStudent Accounts Activity – Enrolled Students](#).
