## APPLICATION ENHANCEMENTS

### Application Improvements:

#### Grade Import

Grade Import, used mostly with the 3rd Party product GradeQuick, can now import files from an external sFTP site. New Parameters are available in System Configuration to allow the district to select the sFTP site where the system stores the grade files.

System Configuration > Parameter Maintenance

Application = Import and Parameter Group = Grades

SYSTEM PARAMETER SELECTORS	
Application	Parameter Group
<ul style="list-style-type: none"> <li>Grades</li> <li>Help</li> <li>HTN-IMG-TEST High School</li> <li>I-PASS High School</li> <li><b>Import</b></li> <li>iParent</li> <li>iPASS High School</li> <li>IPASS South High School</li> <li>iPASS Testing High School</li> <li>iStaff</li> </ul>	<ul style="list-style-type: none"> <li>Configuration</li> <li><b>Grades</b></li> </ul>

  

SYSTEM PARAMETERS	
Application: Import	Parameter Group Name: Grades
Parameter Name	Parameter Value
GradeQuick Import Directory	/incoming/FromGQ/GradesData

#### ConnectEd Parameters

The ConnectEd Parameters now allows districts the ability to choose a Misc Field to use as Home Language. This allows districts the ability to set up a Misc Field with the student's needed translation language to be used instead of the DOE024 First/Native Language in creating the ConnectEd export file.

The HomeLanguage field will list all Misc Fields available. Select the Misc Field set up for translation language.

District System > ConnectEd Parameters

HomeLanguage

Homeless W/D Date - Misc Field
Immigrant stat - Yrs U.S. School Completed - Misc Field
Message Translation Language - Misc Field
Military (NCLB - OK to release info) - Misc Field
Require Translator at Parent-Teacher meeting? - Misc Field
Require Written info in Native Language? - Misc Field

## Vehicle System

A Maintain Parking Spaces screen has been added to the Vehicle System. This now allows each school to maintain a list of all available parking spaces with a Parking Space number, Description and Handicap designation (Yes/No). The Parking Spaces are then available to select when assigning Vehicle Stickers.

Vehicle > Maintain Parking Spaces

Select School:

PARKING SPACE			
Delete	Parking Space	Parking Space Description	Handicapped
Check All			
Clear All			
<input type="checkbox"/>	A1	A1	Yes ▾
<input type="checkbox"/>	A2	A2	No ▾
<input type="checkbox"/>	A3	A3	No ▾
			No ▾
			No ▾
			No ▾

## Resolved Issues

### Enhancements, Corrections and Minor Enhancements

The following items are included in this release.

Issue #	Description	Support Ticket
<b>MINOR IMPROVEMENTS &amp; CORRECTIONS</b>		
IP-2120	Grade Import, used primary with the 3rd Party product GradeQuick, can now import files from an external sFTP site. New Parameters are available in System Configuration under Application Import and Group Grades to allow the District to select the sFTP site where the system stores the files.	
IP-2239	ConnectEd Parameters now allows district the ability to choose a Misc Field to use as Home Language instead of the DOE024 First/Native Language field. This allows the district the ability to keep a Misc Field with the student's needed translation language to go over in the ConnectEd Export when run.	137409
IP-285	Gradebook/Rankbook Assignment scores entered as Alpha Grades or Special grades like EX are no longer being submitted/copied as unweighted value on the Add Modify Course Grades Screen	
IP-3168	The iParent Registration Screen no longer shows broken images on the left edge of the screen.	
IP-3273	Vehicle System now has a maintenance screen available to create parking spaces. Note: sites will have to assign the menu choice of Maintain Parking Spaces to User Type to see this option.	1580688
IP-3670	All published documents are now showing in all circumstances. There were a few special circumstances where they did not show for Parents and Students.	
IP-3741	Clever Export is now finding all districts if there are multiple districts in iPass. This was an issue for Regional Districts	

IP-3919	CRDC: The CRDC v2 report School file is now calculating counts correctly for the number of enrolled 504 Only students in the SCH_ENR_504_Race_Gender field. Note: Students that are coded with both a DOE039 504 code and an active Sped code in DOE034 will NOT be included.	2045895
IP-3922	CRDC: The CRDC v2 report School file is now, calculating counts correctly for courses mapped in the SCH_APOTHENR Data Element in the following fields: SCH_APOTHENR_IND Yes/No Indicator and SCH_APOTHENR by Race/Gender/LEP/IDEA.	2047156
