APPLICATION ENHANCEMENTS
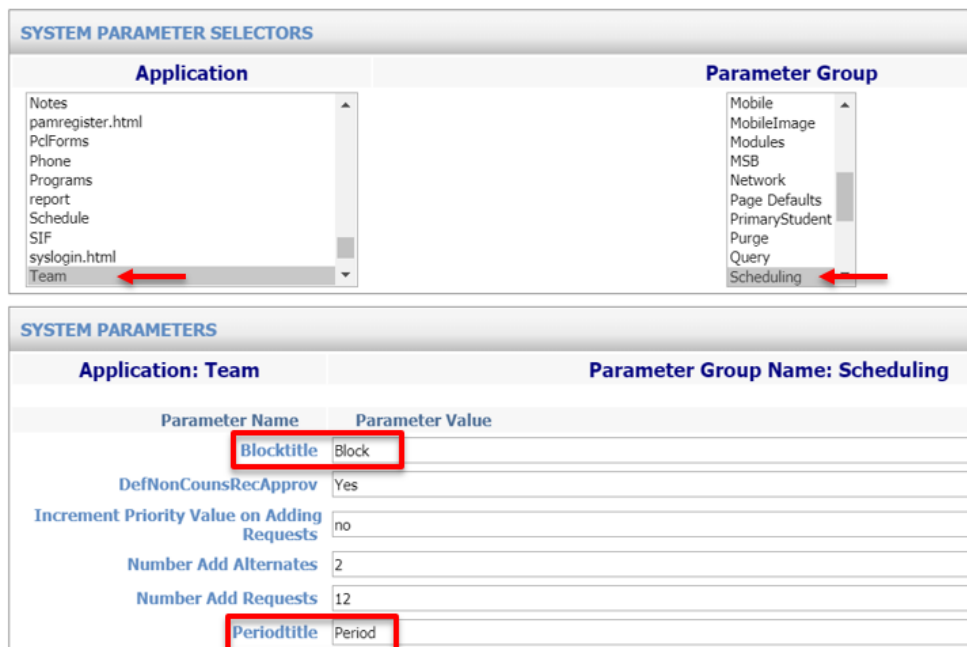

Application Improvements and Corrections:

Student Schedules – Block/Period Titles

The Block and Period Titles can be set for district-wide use or set individually By School using System Parameters > Parameter Maintenance.

District-Wide setting:

System Configuration > Parameter Maintenance
Select Application = Team
Select Parameter Group = Scheduling

The BlockTitle and PeriodTitle Parameter Values are used district-wide unless individual schools enter their own Parameter Values. *See option to set By School below.*

Modify Schedules > Select Student > Print Schedule screen (casstuschedprint.html) and Scheduling Reports > Student Schedules (rpscasstuschedule.html) show the Block and Period Titles entered in System Configuration > Parameter Maintenance > Application = Team and Parameter Group = Scheduling.

School Settings:

School Settings can be set independently.

Select Application = School Profile Sequence # *(See note below on how to find this #)*
Select Parameter = Scheduling
Enter the Parameter Value to be used to label "Block" and "Period" in the BlockTitle and PeriodTitle fields.

Note: *If Parameter Value is left blank, the Block/Period Titles will default to the selections entered for the district in TEAM/Scheduling.*

Modify Schedules > Select Student > Print Schedule screen (casstuschedprint.html) and Scheduling Reports > Student Schedules (rpscasstuschedule.html) show the Block and Period Titles entered under System Configuration > Parameter Maintenance > Application = School Sequence # and Parameter Group = Scheduling.
