

## Version 7.0.20140624 and 7.0.20140624r Patch Release Notes

Project	Key	Summary	Version/Patch Number	vTiger Number	Release Notes Problem Description
iPass	<a href="#">IP-374</a>	EPIMS not calculating Attendance correctly for 12 month employees	7.0.20140624		Tonight's patch will fix this. Notes will be out tomorrow on what to set up. There is a new field to fill out using the batch data entry. You will need to go to DOE ID Manager DOE Maintenance DOE field and find the Staff Monthly Contract field. Click on this field and adjust the amount of time needed for 10 month and 12 month employees. You can add codes to this needed to distinguishes other amounts of days. Then use the iStaff Procedures>Batch Data entry to assign this to people who need it. The default will be 10 month so you do not need to fill everyone out just those who are not 10 month employees. this number of days is used for the expected days and then this amount is used to minus the number of days used to get the
iPass	<a href="#">IP-292</a>	vt 42722 - rpsplgrdprogress.html does not have One Per Lives With parameter available	7.0.20140624	42722	One per Lives with Yes/No allows the report to be run and the output to limit the number of reports for each student to only 1 per lives with equals yes flag on the student's guardians. With the email in Rankbook/Gradebook all guardians needed to be marked as lives with Yes and receives mail Yes in order to receive emails. This made the output of this report to print two per student when only
iPass	<a href="#">IP-206</a>	iPass - iStaff module; Salem PS - Seniority report in iStaff output to excel rpsrssenior.html	7.0.20140624		iStaff > Reports > Seniority report is now available in Excel.
