# Resolved Issues

## Corrections and Minor Enhancements

### SIF Enrollment fixes

Fix for SIF data transmission of DOE011, DOE012 and DOE013 codes for students with multiple enrollment records for the current school year (ie. changed enrollment status or withdrew).

The SIF event was combining codes from the multiple records sending DOE011 or DOE013 from Current records when submitting a Historical record.

### SIF SPED fixes

iPASS will no longer automatically move the DOE032 code to the DOE034 field when a child turns 6 years old.

It is now the user's responsibility to update the student to the appropriate age group code.

There is now a 3-5 and 6-21 version of the "01-Not Currently a Special Education student but was previously a Special Education student during the current school year" code.

These codes have been added to your site and the parameters set up to tell which code to put in the DOE032 field and DOE034 field.

**NOTE:** We recommend that you review all the students that are 6 years old or older that have the "01" code to make sure they have the correct "01-6-21" code.

### Run the Advanced Export Report with SPED status and Date of Birth

This will show you who needs to have their SPED Status code changed

FIELD 1	<input type="text"/>	1	Sped Status State Code Label: Sped Status State Code	<input type="text"/>	<input type="text"/>
FIELD 2	<input type="text"/>	30	Sped Status Label: Sped Status	<input type="text"/>	<input type="text"/>
FIELD 3	<input type="text"/>	60	DOB (mm/dd/yyyy) Label: DOB (mm/dd/yyyy)	<input type="text"/>	<input type="text"/>

**This student would need to be fixed – see birth dates.**

01 - 3 -5 Not currently a Special Education Student, but was previously a Special Education student during the current school year	03/15/1997
