

## Welcome to Wednesday's Wisdom – A weekly dose of support! December 9, 2015

### Announcements

**iPASS Support on December 10<sup>th</sup> and 11<sup>th</sup>** – Due to the Harris Summit there will be limited support staff on these days. Please submit all issues through the Harris eSupport ticket system. Support staff will be monitoring the queue for priority issues. In the event of network connectivity issues please contact our Call Center Directly via 866-450-6696 or [support@harriscomputer.com](mailto:support@harriscomputer.com)

#### How to enter an eSupport ticket:

There are three ways you can enter a support call request. The fastest and most complete way to enter a support call is for you to enter the call using our online eSupport site at <http://support.harriscomputer.com>. Using the online support system allows our support department to see your call immediately and allows for the quickest turnaround time.

The second way you can enter a support call is to email your question along with any pertinent information to [support@harriscomputer.com](mailto:support@harriscomputer.com). Harris call center personnel will take your email information and log a call on your behalf. The turnaround time using this email method is a little slower than logging the call yourself using our online eSupport system.

The third way you can enter a support call is to call the 866-450-6696 toll-free number and choose option 1. Harris call center personnel will take down your information and log the call on your behalf. If you use this method, please be sure to mention the product name, iPASS, so the call will be directed to our iPASS support staff. Calling the toll-free number is the least preferred method as information that is verbally conveyed can be incomplete or inaccurate when translated into a written message.

### Frequently Asked Questions
