NOTES:

Bio Verification Report

Use the following Parameter Selections to get 1 copy for each student or 2 copies when the parents/guardians live at separate (unique) addresses:

- **Relationship to Student** *(Do not select unless you want to limit)*
- **Legal Status** *(Do not select unless you want to limit)*
- **Guardian Receives Mail = Yes** *(All parents/guardian that should receive mail/email/correspondence should be set to Yes)*
- **Guardian Lives w/Student = Select**
 - **Yes** *(This will print one report to Contact that Lives w/Student)*
 - **Blank** *(This will print one report for parent that Lives w/student AND one for parent that does not live with student and is set to "Receives Mail = Yes". Each report will be addressed to the Contact Name at that address.)*
- **1 Copy per Lives With Flag = Yes** *(This will make sure both parents at same address only general one report)***

** Note: If the address is perceived to be "unique" it will generate 2 reports. If one parent has address entered as "Road" and one as "Rd," this is perceived to be 2 unique addresses. This relates to data entry process.

Using Relationship and Legal Status will restrict the report to only those selections. Legal Status is currently single select. Multi-select will be added in a future update.

Additional fixes:

- The Sort By = Name will sort by Student Name (as it did before)
- The report will now print multi-page report if the number of contacts is greater than can print on a page.
