APPLICATION ENHANCEMENTS

Create iStudent Accounts and/or Student email addresses

A new option titled “Create iStudent Accounts” has been added to iStudent Configuration. The “Create iStudent Accounts” functionality allows end users to:

- Create or Update students iStudent accounts
 - iStudent accounts can be created by School, Grade, or created by individual student.
 - The selection criteria can be saved so new students entering the school can have an iStudent account created at the time of enrollment.
 - End users have the option to “Append” iStudent accounts or Update iStudent accounts.
 - Append > only adds new accounts and/or emails if not on file already.
 - Update > Adds new and updates existing accounts and /or emails addresses.

Note: iStudent accounts are not replaced. If an iStudent account is replaced, the student will no longer have access to any published documents.
- A “Users Exception Report” allows end users to see if there are any exceptions to the selected criteria.
