## APPLICATION ENHANCEMENTS

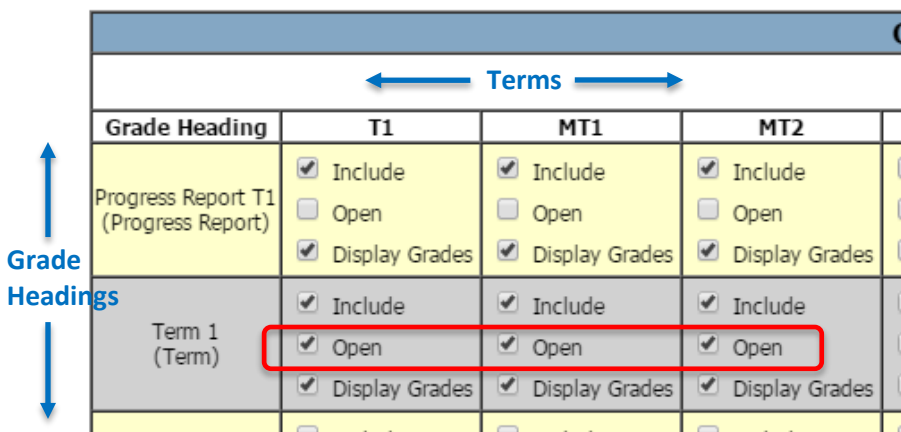

### Application Improvements and Corrections:

#### Grade Headings & Terms

A new option to open one Grade Heading in multiple Terms in a now available. Schools that offer multiple Term types with overlapping grading windows (ie. Quarter Terms and Mini-Terms) can now open all of the Terms in one Grade Heading at the same time to allow teachers to enter grades during the same scheduled grading window. Previously the Grade Heading could only be open in one term at a time.

Grading System > Maintenance – Grading > Grade Headings & Terms

In the example below, the T1, MT1 and MT2 Terms are all scheduled during the same period. All three Terms can be opened in the same Grade Heading for simultaneous grade entry.
