Pending Forms
 Waiting Approval
 Not Filled Out
 Partially Approved
 Rejected
 Approved and Synced

For the forms with SIS Fields in them a warning will be displayed (“This form have SIS Fields in it. Please use caution when mass approving this form, since data will be sent back and changed in your SIS. We strongly advise you to approve these forms one by one to avoid false data in SIS”) and user will asked to check the checkbox indicating that they understand the risks of mass-approving the form with SIS fields in it.

OE-148 - Define specific users who may approve the form

New form option – “Contains Confidential information” has been added to Form Setup screen. If this box is checked only certain people (defined in the “Contact Users” section) will be able to see and approve the form.

 Form-level approval?
 Contains Confidential Information
 Email for each section approval?
 Email Updates to Contact User(s)?

Description

OE-151 - Add a Possibility to Create School News Item

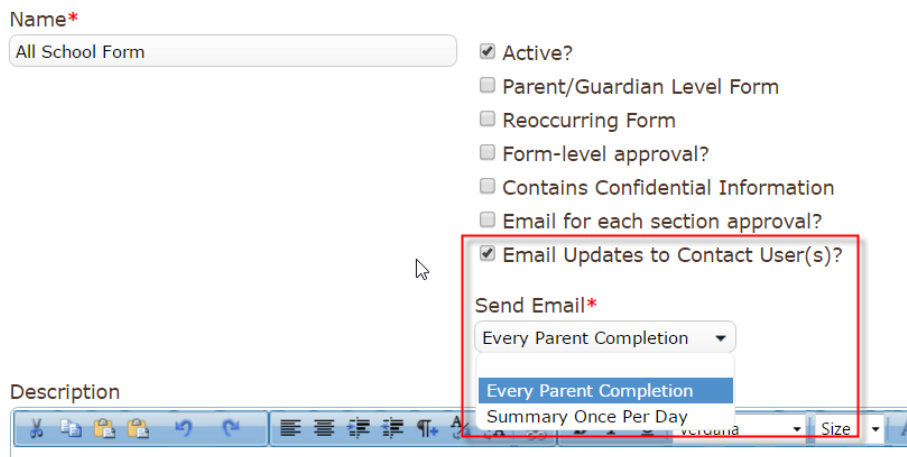

School news can be defined in the District News screen. School news will only be visible to the parents that have students in the particular school.

OE-153 - Email notifications to Form Contact Users - Email sending Service

New Form options has been added that will allow district users (defined in the “Contact Users” section) to receive email notifications about new forms that are waiting to be approved.

Form Setup

All School Form - Alaska District

Following options are available:

- Every parent completion – a user will receive an email every time parent completes a form and it is added to queue for the user to be approved
- Summary one per day – an email summary will be sent to user showing the count of forms that are waiting to be approved.

OE-155 - Make it possible to suspend all district Forms

“Suspend All Forms” is a checkbox on District setup screen. If this is checked all forms will be suspended for the district. This will include:

- None of the forms will be visible to parents
- District users will not be able to approve or reject the forms. Following message will be displayed in the Form Approval screen – “All Forms are suspended for this District. You cannot Approve/Reject forms until Form Suspension is lifted.”

OE-159 - Harris District codes need to 9 characters

Harris District Code has been changed on the District Setup screen to allow codes to be up to 10 characters long.

OE-160 - Change EZSE Parent and Student sync error emails

The system has been changed to send the parent and student sync errs (like invalid emails or non-existing parents) to district contact users instead of EZSE developers. District Contact persons can be defined in the District setup screen.

OE-164 - Automate the way SIS fields are added to a new district.

For new districts that do not have the SIS field added yet a button “Populate SIS fields” will be displayed in the district setup screen. Clicking this button will populate all the SIS fields for the SIS that is selected for the district.

OE-166 - Add School district to the login credentials email notification for parents

Password reset email has been changed to include the district name student is enrolled into and that the parent is signing up for.

OE-173 - District search selection should follow user in session

The district selection made in the district search field will follow the user to other screens throughout the session.

OE-174 - Add a way to insert URLs into Question, Section and Form descriptions

Hyperlink button has been added to the Form, Section and Question Instruction textbox that will allow creation of Hyperlinks as part of the text.

Bug fixes

OE-168 - When items (questions, sections, forms) are deactivated they should not appear to parents.

Parent form screen has been changed to not include questions or sections that are not active.

OE-170 - Check the Reset Password email message and ensure the "days" parameter is showing accurate days the link is active.

The password reset email has been changed to correctly indicate number of days the password reset link will be valid for.

Internal changes

OE-158 - New System task to clean sFTP site

Maintenance job service has been changed to delete all Archived files on the sFTP after 30 days.
