

# **I keep trying to enter a grade over 100 but keep getting an error message of invalid grade. How do I enter a grade over 100?**

Go to Add/Modify Rankbook, click on the Settings Tab. Then click on the link "Click here to define your default grades" and add grades from 100 to 200. This will create the additional grades in your grades table for scoring assignments over 100.
