

# Patch Release Notes - 7.0.20151228\_sync

## Sync Version Only:

### Application Enhancement – Online Course Recommendations

Enhancements have been made to the iPass Course Recommendation process; the goal of these enhancements is to offer to parents a clean and easy to understand list of what course requests are being assigned to a student. And give staff members the ability to “undo” steps within the course recommendation process.

- Allow a method for schools to give directions and contact information for making changes to a student’s existing course request.
- Allow Counselors to undo the approval of a recommendation.
- Allow the Recommendation screen to be read-only to parents.
- Allow school to control which school year a parent/student is entering course recommendations for.
- Allow school to control the approval checkboxes on the recommendation screen.
- Allow a teacher to delete a course recommendation.
- Allow students, parents, and counselors to add alternate Recommendation for a main recommendation.
- Allow the Course Request Verification report to be a publishable document.
- Allow school to track which parents have viewed the Course Request Verification report.

### Corrections and Minor Enhancements:

- A new indicator was added to School Attendance Parameters titled “Allow Multiple Daily Attendance Records”. When this parameter is set to “No” the application will not allow multiple codes for a student in a given day.
- The Export 52 Elements Report will no longer issue a timeout error when generated.
- Add-on points is now calculating correctly on the GPA.
- iAuto Alert “Guardian Names and Phone Numbers are now showing on the Daily Attendance View screen.
- iStaff Careers are now showing all the Steps and Levels correctly.
- In the College System the Update College feature is now working correctly.
- On the iStaff Career page more Step values have been added to the drop-down.
- The Export DOE MEPID Request is now returning the correct number of values.
- Advanced Export Report will no longer add leading zeroes to the StudentID
- The Allergy Report is now returning the appropriate data.
- All the student information will now show in the Gradebook regardless of the browser the

end user is using.

- Attendance Codes can now be revised using the "œ" symbol on the attendance page.
- Student Schedule will now print correctly when schedule type is Period and Summary.
- SIF 2.7 a new mapping table was added for Primary Disability codes.
