Patch Release Notes - 7.0.20160629_sync

Sync Version Only. Massachusetts and Pennsylvania sites.

Description

- iPass > iHealth > Reports â€" Health > Letters >The BMI Percentile will now be reflected on the BMI Letter.

- iStudent > Schedule > When District Configuration is set to â€œCurrent and Priorâ€ schedules and iStudent Configuration is set to â€œHide Teacher Name and Roomâ€ Student will no longer see the Teacher Name and Room when they select Print Schedule in iStudent.

- iPass > Scheduling System > Teacher Schedule > Reports > Teachers Schedule report > the report will now reflect page breaks in HTML and RTF formats.

- iPass > Administration > School Resources > Teachers/Staff General Information screen > end users with school level security will only be able to see and access teachers and staff members for the schools they have access to.

- iPass > Student Biographical > the students age in months will no longer increase at the start of the month. Example: if a studentâ€™s birthday is May 30th, his age will show as X years 4 months until after his birthday. After his birthday his age will reflect X years 5 months.

- iPass > iStaff Professional Development (iStaff Prof. Dev.) > Reports > PDP Certificate > this report will no longer reflect â€œ$â€ for the program end date.

- Search screens will now allow end users to use the â€œEnterâ€ key to search. Previously the end user had to click the Search button.

- iPass > iStaff Biographical > Reports > Staff Data Export > Employee Selection Criteria selection boxes have been made larger allowing for multiple selections.

- iPass > iHealth > Reports > Letters > Vision Screening will now reflect page breaks in HTML and RTF.

- iPass > Scheduling System > Reports > Student Schedule PCL

will now complete as expected.

- For end users who use the Apple Safari browser, only. iPass > iHealth > Add/Modify > Immunizations > will no longer reflect â€œ???????â€ when incorrect data is entered.

- iPass > Student Biographical > Add/Modify Student Biographical > Guardian Information section > after you enter an email address it will display properly on all screens for that guardian.

- PCL Reports for scheduling will now reflect a space between Locker Number and Locker Combination.

- iPass > Scheduling System > Master Schedule Builder has been fixed to schedule linked courses.

- iTeacher > Competency Report Card > teacher can now only print report cards for students scheduled in their class.

- iTeacher > Add/Modify Rankbook > when viewing a previous yearâ€™s data the headers will no longer change to the current year.

- Gradebook > Optimal Grade Drop field is now working correctly across terms.

- iPass > iHealth > Reports >Student Immunization report will now sort as expected when the â€œOnly Students without a recordâ€ option is selected.
